2. Presentation: Governance at the RPT / CAT

- Holly and laura presented on how the RPT and CAT work together to enact systems change.

3. Activity: Retrospective

- Completed an [activity](#) to reflect on the work the RPT has done in the past few months. Organisational and community members were given time and space to reflect on the last year of the RPTs' work and identify things that made them feel Mad, Sad and Glad
 - i. Mad: The short-sighted focus the RPT can have; Circular discussions about ineffectiveness; The glacial pace of change in trans-affirming care
 - ii. Sad: The scale of the challenge we face to truly change systems; The disconnect between tables / not knowing who our partners at the other are; Lack of clarity on the role the table has and the leverage we have available to enact change
 - iii. Glad: The connection the space gives us to others who also care about this important work; The recent shift toward more collaboration between tables; Productive, helpful and challenging conversation the table allows us to engage in; The possibilities for direct engagement and measurable progress given through our new Work Plan

4. Presentation of 2025/2026 Work Plan

- laura presented the updated workplan for the upcoming year.

5. Anything else?

- Ollie update on why their talk from Jun 10th was cancelled - long story short, the hamilton trans community reached out to ask me to cancel given that McMaster was using my talk as a way to skirt responsibility around the faculty of Health Sci having connections to the anti trans hate group SEGM
